## Short story

Another day

Another day another life  
Another life another ride  
Another ride another happy night

Another day another life  
Another life another pain  
Another pain another lie  
Another lie another strike  
Another strike another sleepless night

Another day another life  
Another life another pain  
Another pain another lie  
Another lie another strike  
Another strike another snap  
Another snap another stab  
Another stab another pain  
Another pain with an end in sight

There is no other side.
